

Environmental Policy

HEAVY MELTING s.r.l. is an Italian company with registered office in Rome and an administrative office in Modica. The company operates in the wholesale trade of scrap metal without storage and operates commerce and intermediation services without custody, for waste.

The company is particularly sensitive about environmental topics, and it is accurate and careful in the commitment that our activity must not cause harm to the environment, making environmental protection's principles as own business principles.

HEAVY MELTING S.R.L. implemented an Environmental Management System in compliance with the international standard UNI EN ISO 14001:2015.

HEAVY MELTING S.R.L. states that the continuous improvement of its environmental performances leads to significant economic and commercial advantages, satisfying in the meanwhile, the expectation of the local context regarding environmental improvements.

HEAVY MELTING S.R.L. is committed to:

- Prevent any form of pollution related to our activity;
- Pursuit a policy for continuous improvements of our environmental performance, reducing when possible, every negative impact at the environment from our activity;
- Guarantee that our activity is conducted in full compliance of the environmental regulation in force and any possible code of good practice endorsed.

In particular HEAVY MELTING S.R.L. is committed to:

- Identify the context in which it operates;
- Implement and maintain an efficient Environmental Management System in compliance with the international standard UNI EN ISO 14001;
- Define responsibilities and procedures to ensure an appropriate management of the environmental aspects and of the environmental risks related to our activity;
- Provide available resources, financial means and adequate competences
- Ensure cooperation with the competent public authorities
- Monitor the environmental impact of our activity;
- Decrease the energy and raw materials consumption and reduce the waste production, fostering its recovery, when possible;
- Improving the environmental efficiency, setting targets and improvements goals;
- Raise employees' awareness on environmental matters;

- Ensure that the environmental policy and the Environmental Management systems are understood, implemented and maintained. Organise periodically training activities, especially for new hires;
- Ensure that the present document is available to all the stakeholders;
- Ensure that the System is updated to the latest legislative development.

Main goals are :

- A more attentive management of environmental aspects
- A detailed analysis of the environmental risks related to our activity;
- The decrease of the significant environmental impacts;
- Choose suppliers always more qualified;
- The improvement of the efficiency of the company, setting as a fundamental goal the certification of our system.

The specific goal will be defined yearly on the “Environmental Yearly Plan”, which consist in a defined plan of the yearly goals and or the improvement actions. These Goals have to be:

- Coherent with the environmental policy;
- When possible, measurable;
- Comprehensive;
- Established for the whole company.
